OFFICIAL PAPER OF THE CITY BY ACT OF THE CITY COUNCIL

DIXON, ILLINOIS SATURDAY JULY 7 1912.

Dixon Daily Telegraph Twenty-Ninth Year No. 158

MAY MOVE TO FREE DR. HARRY E. WEBSTER

CALLAHAN & CALLAHAN CONTEMPLATE ASKING FOR NEW TRIAL

PROPOSED ACTION DISCREDITED

By the Local Attorneys—Judge Farrand Uninformed in Contemplated Matter.

Chicago, July 5—Counsel for Dr. Harry Elgin Webster, under a life sentence for the murder of his wife, Bessie Kent Webster, killed in a strip of woods in Ogle county, today began an effort to reopen the case.

More than 30 witnesses, it is declared, will be examined, to prove that Webster was of unsound mind when he committed the crime.

Judge R. S. Farrand, who sentenced the doctor, will be asked to grant a new trial.

The above telegram, sent out by the Associated Press last evening, has aroused a great deal of interest in this vicinity, inasmuch as Webster was a Dixon boy and the crime was committed in the Schorr woods, northeast of this city.

Report Discredited.

Local officials and attorneys discredit the report, and the uselessness of the procedure outlined is pointed out by the attorneys.

Attorney John E. Erwin of this city, who was chief counsel for the defense, was shown the Associated Press dispatch by a Telegraph representative. In reply to questions he stated that he knew absolutely nothing of any such action being undertaken by counsel for the defense, and denied flatly that any such course had ever been discussed by him.

Judge Farrand Uninformed.

When Judge R. S. Farrand was asked concerning the report he stated that he knew nothing of any such action being contemplated, and added that he could not be asked to grant a new trial, that being a procedure that would have to be taken before some higher court or the pardon board.

Callahans Back of Move.

Additional information received today from Chicago was to the effect that the law firm of Callahan & Callahan, who assisted in the defense of Webster, were back of the proposed move and that their actions so far have consisted mostly in giving interviews on what they would like to do in the case.

Urge by Counsel.

The Chicago Daily News, in its story of the contemplated move on the part of the Callahans, says:

The effort to reopen the case will be based on the alleged fact that, while Webster pleaded guilty before the trial judge, he was urged to do so by counsel and by reason of his mental state was unfitted to act of his own volition in the matter. The whole matter will be taken on the ground that Webster was insane when he committed the deed, had been insane for months before and is still insane, it is said.

"While nothing definite has been decided upon yet," said Attorney Jas. E. Callahan today, "we are contemplating a move. We will probably ask a new trial for Dr. Webster of the judge who sentenced him. We have consulted alienists and believe we are justified in reopening the case."

DENVER AUTOS MAY NOT COME

EXPECTATIONS ARE THAT RETURN WILL BE MADE VIA ST. LOUIS.

It is very probable that the Denver Automobile club, which was expected to pass through Dixon last week, but which instead took the LaSalle-Ottawa route from Rock Island to Chicago, will not come through Dixon on their return journey to Denver, as has been expected. A number of local automobile men have received word that the club, which is traveling in thirty years, expects to return via St. Louis.

Wm. Scriven and son Floyd of Dubuque, Ia., are visiting at the J. E. Scriven home.

STERLING WILL GIVE JUICE DURING REPAIRS

GAZETTE SAYS A MONSTER GENERATOR IS TO BE INSTALLED THERE.

EXPRESS AND BAGGAGE CAR

Utilities Company Is to Make Great Improvement in Interurban Service.

A generator sufficient to furnish light for Dixon and to drive the S. D. & E. cars is to be installed in the lower plant at the foot of 15th avenue by the Public Utilities company, says the Sterling Gazette. The present generator will be moved to the electric light station and will be used for auxiliary purposes.

May Be Central Station.

A positive announcement could not be secured today, but in view of the installation of the big generator at the old power house, leads many people to believe that it is the intention of the company to make the old power house the central power station. At that place the company has several additional lots.

Rebuild Dixon Plant.

The big generator is to be used to light Dixon and drive the cars while the Dixon plant is being rebuilt.

Baggage and Express.

Superintendent Treat stated that a baggage and express car between Dixon and Sterling will be put into service in the near future. He states that the company is desirous of getting a large building here for ticket offices, waiting rooms, gas and electric light offices, warehouse, display room, etc. He would like to have this building close to the street car tracks and if possible in the center of the business district, so that a switch track can be run either into or alongside of it for the purpose of handling express or baggage.

Temporary Superintendent.

While the company is completing the organization, a permanent superintendent for Sterling will not be named, but a temporary official will be secured.

HEAT IN CHICAGO KILLS 7

While City Sizzles Under Most Severe Torrid Spell of Season.

Chicago, July 6—Seven deaths and 21 prostrations were attributed to the intense wave of heat that swept over Chicago. This is one day's toll taken by the mercury in its strides toward a new record for the year. The suffering was most apparent in the thickly settled districts. There women and children sought comfort in patches of shadow as they sat sweltering outside their homes.

WOODMEN CALL THAT ELECTION

HEAD OFFICERS SENDING OUT BLANKS TO VOTER ON NEW RATES.

Much as has been said by the Modern Woodmen insurgents against the new insurance rates of the society and great as has been the demand for a referendum vote on the proposed increase, the officials of the society have gone them one better and, not waiting for the insurgents to file petitions for the referendum as under the recently enacted laws of Illinois they might do, the society has taken the initiative, says the Rock Island Union.

Sending Notices.

Beginning today the local head offices are sending out to the several camp clerks in the society a blank petition for the referendum vote and asking that action on the same be taken at the next regular meeting of the camp.

Calling Election.

These petitions will be sent to all the clerks and will spare the insurgents the expense of the campaign. If sufficient camps representing 10 per cent of the total membership of the society sign the petitions and ask for the referendum the vote will be taken as soon as it can be arranged.

For the referendum the insurgents must muster more than 50 per cent of the entire membership of the society against the new rates to defeat them and it is hardly possible this can be done, is the belief.

The Circular.

At any rate the officials of the society have shown a disposition to have the referendum vote taken and test the sentiment of the membership and then to abide by the decision.

DUFFY & HUBBARD GET HARD ROAD CONTRACT

LOCAL CONTRACTORS THE SUCCESSFUL BIDDERS AT MILLEDGEVILLE.

Duffy & Hubbard, the Dixon hard road contractors, yesterday secured another fine contract at Milledgeville, where the commissioners of highway accepted their proposal to put in fourteen miles of hard roads, at a cost of \$35,000. There were five bidders at the meeting of the commissioners and naturally the local men are pleased because of their success in getting the work.

Are Completing Big Job.

The firm is at present completing a big contract in the vicinity of Oregon, where they have been working since May, 1911. The contract at Oregon is for about \$24,000 and the contractors expect to complete their work there within thirty days; following which they will commence work on the Milledgeville job immediately.

ANDERSONS IN CHARGE ODD FELLOWS' HOME

MR. AND MRS. O. B. ANDERSON LEAVE FOR MATTOON MONDAY.

ACCEPT TEMPORARY POSITIONS

As Superintendent and Matron of Old Folks' Home—An Honor for Dixonites.

Mr. and Mrs. O. B. Anderson and daughter Margaret of this city will leave Monday for Mattoon, where Mr. and Mrs. Anderson will act as temporary superintendent and matron, respectively, of the Odd Fellows' Old Folks' Home. For some time the trustees of the institution of which there are 130 inmates exclusive of the help, have been trying to persuade Mr. and Mrs. Anderson to take the positions permanently. Mr. Anderson, who was formerly a trustee of the home, has declined to accept the permanent position, but at the solicitation of the board he has agreed to assume the superintendency until permanent officials are secured.

Is a Big Honor.

The Old Folks' Home is one of the largest of the charitable institutions maintained by the Odd Fellows, and the trustees desire to secure Mr. and Mrs. Anderson as permanent officials is indeed an honor to the local people. Mr. Anderson, who for years was manager of the local yards of the Emerson Lumber company, is a business man of pronounced ability, possessing with that ability a pleasing personality. There is no doubt but that matters at the home will be well attended to under his and his wife's direction, and their many friends here predict that they will have some trouble getting away from the position, once they have assumed it. During their absence from the city Mrs. Wood, Mr. Anderson's sister, will manage their household here.

Calling Election.

These petitions will be sent to all the clerks and will spare the insurgents the expense of the campaign. If sufficient camps representing 10 per cent of the total membership of the society sign the petitions and ask for the referendum the vote will be taken as soon as it can be arranged.

For the referendum the insurgents must muster more than 50 per cent of the entire membership of the society against the new rates to defeat them and it is hardly possible this can be done, is the belief.

The Circular.

At any rate the officials of the society have shown a disposition to have the referendum vote taken and test the sentiment of the membership and then to abide by the decision.

The following article was clipped from the Post-Intelligencer, Seattle, Wash.:

One of the prettiest of the June house weddings, witnessed only by the relatives of the bride and groom, was that of Miss Edith Louise Potter and George H. Squires of Dixon, Ill., which took place at the home of the bride's mother, Mrs. Frederick Oscar Potter, 1607 Ravenna boulevard, on Thursday evening, June 20th. Rev. Luther Little of the Tabernacle Baptist church, officiating.

The rooms were prettily decorated in pink and white, a beautiful little bower banked in with ferns and palms, and studded with marguerites and pink roses being arranged as a background for the bridal group, which was small, there being no attendants, except the little niece of the bride, Katrina Janet Harley.

The bride who was given in marriage by her mother, was daintily gowned in white embroidered muslin and carried blossoms of the valley. She is an Alpha XI Delta girl and one of this year's graduates from the University of Washington.

Real Pierrot Ruff.

The newest thing in neck fixings is an altogether joyful, really truly ruff by Pierrot. There have been heaps of them so called—but this at last is the real thing. Daring and dainty, built out of fine white tulle, wide as one's shoulders—impossibly wide—as exaggerated and silly and delightful as ever the heart of mademoiselle herself could wish, it really sings of itself the "Au clair de lune, mon ami," etc., that this style always recalls till no one, spying the wee poofed rosebuds darting out of the silvery mist of its folds, could help loving it to distraction. Sheer as a dragon's wing, exquisite, perishable—it would take the moth-eaten soul of the stupid old German professor, deep dyed in philosophy, to condemn this delfelous piece of folly.

Petticoat Pocket.

A novelty of the season which will be received by many women with gratitude is the petticoat with pockets, which has been made in a really practical manner, with two ample pockets, one on either side, for the accommodation of treasures too precious to trust to the handbag, says the New York Herald. Especially will this be useful now that the season of traveling from place to place is about to set in. The petticoat is made of satin and the pockets are equipped with flaps so that they will be entirely safe.

CITY IN BRIEF

When You Think

Of the pain which many women experience with every month it makes the gentleness and kindness always associated with womanhood seem to be almost a miracle. While in general no woman rebels against what she regards as a natural necessity there is no woman who would not gladly be free from this recurring period of pain.

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well, and gives them freedom from pain. It establishes regularity, subdues inflammation, heals ulceration and cures female weakness.

Sick women are invited to consult Dr. Pierce by letter, free. All correspondence strictly private and sacredly confidential. Write without fear and without fee to World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

If you want a book that tells all about woman's diseases, and how to cure them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing only, and he will send you a free copy of his great thousand-page illustrated Common Sense Medical Adviser—revised, up-to-date edition, in paper covers. In handsome cloth-binding, 31 stamps.

18th YEAR IN DIXON DR. PRETTYMAN

For over 17 years Dr. Prettyman has been coming to Dixon every four weeks. What he has accomplished in the time is a matter of history suffice it to say, it has made him a reputation that no other specialist has ever attained nor can hope to attain in this vicinity.

His Work Speaks for Itself

The doctor keeps abreast of the times by devoting all his spare time to clinical work in the Chicago hospitals. He is not content to rest on laurels already won but he is on the alert for anything and every thing that will assist him in diagnosing and treating the many cases that come before him. In 1909 he had special work in hospitals of London and Edinburg and is enthusiastic over the results attained.

DEMENTTOWN

Headquarters could win everlasting gratitude if they would discover something to put on the streets that would keep the mercury as well as the dust settled.

Still, quit your kickin'. Everyone remembers that you swore faithfully during February that if it ever did get warm you wouldn't kick, no matter how hot it was.

We are told that there is a seashore sign in a Freeport store window: "Clothes make a difference. If miles and they are talking of enlarging it so Roosevelt will have more room to travel round in. With the present area he is somewhat crowded.

The world has axis at each end which accounts for the sea being so choppy. The poles are only imaginary—which same can be said about the discovery of one of them.

New Peoria Avenue Club.

It is rumored that a number of people residing in the vicinity of Peoria avenue and Second street have organized a new cult, the principal features of which are to get back to nature. Additional particulars will be forthcoming soon. Watch this col:

Political Significance Seen: Washington, July 6.—Major General Wood, chief of staff, has sent a telegram to the commander of the Tenth infantry requesting a full report on the Panama incident immediately.

Officials here suspect that what was at first believed to be nothing more than one of the common rows peculiar to the rough district in Panama may actually have a very serious foundation and be connected in a way with the political situation.

Adherents of the Porras cause have all along insisted that the Panama police were bitterly hostile to all Americans.

Previous Murder Is Recalled: It has been alleged that American sailors have uniformly been treated with the greatest harshness by the police. It is recalled that a year or two ago one American bluejacket was deliberately murdered and several others severely injured by the police for which the Panama government was obliged to pay a round indemnity. With reports now due from the American legation at Panama and the commanding officer of marines, officials here expect to be in possession of all the facts necessary for their guidance within a day or two.

OROZCO DENIES STORY

Rebel Chief Will Not Fire on El Paso Gas Plant.

Says He Is Doing Everything Possible to Keep From Offending the United States.

El Paso, Tex., July 6.—Rebel troops are arriving at Juarez, Mex., opposite El Paso, by the train load, on their retreat from Chihuahua. Gen. Pascual Orozco, the rebel chief, came with them and will remain there until they have all been moved to Sonora, Mex., their new field.

Orozco succeeded in retaining perfect order in the city of Chihuahua until the federals could arrive. He left the city in the care of volunteer police and enough of his troops to prevent looting. Orozco has destroyed the railroad north of Chihuahua, so the federals could not follow, but his mounted men soon covered the distance and rejoined their retreating comrades.

Orozco says there was no foundation for the report telegraphed to Washington from El Paso that he had ordered his cannonners to fire on the El Paso gas plant. Orozco and his officers say they are doing everything possible to keep from offending the United States. Orozco says he intends to take his men peacefully from Juarez and that when the federals arrive they will find no opposition.

NEW NATIONAL FLAG WAS USED

NEW EMBLEM HAS FORTY-EIGHT STARS—UNFURLED THURSDAY.

Washington, July 6.—The new national flag bearing 48 stars, emblematic of all the states, including the recently admitted Arizona and New Mexico, was displayed from all federal structures in the country and from the American warships throughout the world Thursday.

Thirteen stars only will be permitted in the blue square of the naval flags that are 1 esathsm. -kmR flags that are less than five feet wide, to avoid over-crowding. The red field on the President's flag was changed to blue Thursday, but, because of the President's absence, only the regular flag fluttered above the White House.

Another big novelty act on the bill will be dancing ensemble of remarkable quality called the Ballet Classique. This remarkable exhibition includes 14 people.

Ed Blondell, the noted comedian, will produce a comedy sketch. Mr. Blondell ranks among the best of the comedians.

Billy Gould and Belle Ashlyn will have very important features of the program with their novelty singing, talking and dancing. Simonet, a high class tenor who comes with more than an ordinary reputation, will present a number of popular arias, and the noted Five Sullies will appear in a comedy sketch in which they are said to convulse the audience for 20 minutes at a time. Tchow's wonderful trained cats will give an example of what can be done with these most difficult animals, and Juggling DeLisle will present many novelties in his line of work.

All of these remarkable acts combine in a lively hot weather show which would be considered a most important exhibition even in midwinter when the most is expected.

GRACEFUL ARMS MEAN MUCH

Woman Who Desires Charm Should Cultivate Their Proper Use and Movements.

If the woman who declared that she would rather have beautiful arms than be clever and good has not our entire sympathy, at least she has our understanding. The character of our arms is so intimately connected with our whole appearance. Our feet, if their modeling is at fault, may be discreetly veiled in skirts and tucked away under tables and chairs, but we can do little to disguise our arms.

The woman who has time to exploit every chance of beauty which she possesses will practice using her hands and arms before a mirror in order that their movements shall be graceful, but it is a mistake for women who are dignified and reserved to use too much gesture. The emotion of the moment should, if it is strong enough, bring gestures into play, but each should be expressive; meaningless movements are only vulgar and distracting.

Every woman should put herself under review occasionally and try to discover whether she is in the habit of making restless movements with her hands. One soon becomes irritated by a companion who is forever rubbing her face, arranging her hair or patting her chair or gown.

A lecturer on deportment has a simple exercise which she recommends for the benefit of those who feel "all hands." It consists simply of dropping the hands before you and wringing them hard for five minutes. The process will limber up the hands so that you forget all about them.

SIMPLE COSTUME OF CLOTH

Classic Lines Give Ample Effect to Model That Has Approval of Fashion.

This costume is in cloth; it has a panel front to skirt, laid on with a wrapped seam and cut wider at the foot, where buttons are used as trimming. The bodice is trimmed with a plastron cut to correspond with skirt panel; folds are made where the ma-

terial joins; buttons form trimming. The sleeves are finished with material bands; lace is used for the undersleeves, also for the collar.

Hat of Tagel to match, trimmed with a feather mount.

Materials required: Four yards cloth forty-four inches wide, one dozen buttons, three-quarters yard lace.

SLEEVES WILL BE FULLER

Everything Indicates a Speedy Return to the Lines in Favor a Few Seasons Ago.

There is a tendency, slight at present, but likely to assert itself and be accentuated as the season wears on, towards sleeves fuller below the elbow.

Perhaps the large cuffs are partly to blame for this, for one must need have sleeves to fill them out.

But it is difficult to place the latest sleeves in any one period since many individual models combine points of fashion from two or even more periods.

There is one sleeve, however, which has not been copied or adapted and that is the "leg-of-mutton," for one thing at least is certain—the fashionable shoulder must slope unimpeded by gather or tuck into the arm, in a pure outline to form.

Thus the fashions are easily and quite naturally slipping from one extreme to another, from the very scant frocks devoid of trimming to more voluminous styles in which the trimming is the feature.

Hint for Embroidery.

When you are embroidering with silk floss or handling silk of any kind you will find it difficult to stop it from catching on your fingers. Moisten your fingers with vinegar. This will make them smooth and you will find that you can work much faster and better.

SOLDIER AND SAILOR REUNION AUG. 13.**OFFICERS OF NORTHWESTERN ASSOCIATION ISSUE A CALL FOR MEETING.****AT THE ASSEMBLY GROUNDS**

Dixon Was Decided Upon as Permanent Meeting Place at Last Session.

The 28th reunion of the Northwestern Soldiers and Sailors' association, comprising the counties of Lee, Ogle, Carroll and Whiteside, will be held at Assembly park in this city on the 13th day of August next.

It was voted at the meeting of the association at Sterling last year to make Assembly Park the gathering place of all future reunions of the association for several very sensible reasons. Under the old plan, so long in operation, the post of the place undertaking to the part of host had to provide a fund to defray expenses and in order to do this was forced to call on citizens for contributions. As this was repeated it became more and more irksome and disagreeable. Rock River Assembly's conspicuous liberality to the old soldiers was manifested once more by the tender of the use of the grounds, including tents, practically without charge, making it possible to do away with the old system.

Furthermore the feeling is prevalent among the comrades that the public has sufficiently bestowed their generosity in the magnificent manner in which they have been entertained from year to year all over the district, and that they should hereafter manage, somehow, to pay their own way, not even permitting the patriotic bodies affiliated with them to furnish meals without pay. Mr. Young has offered to do his part by naming a price for lodgings for such as may care to stay over night at Assembly Hotel to which no comrade can object.

Dixon is Accessible.

Dixon is so accessible from all parts of the district at such moderate expense, and the Assembly grounds are so admirably adapted to social gatherings, that a more desirable permanent abode could not be found.

The meeting or reunion comes the Tuesday following the last day of the Assembly program, and it is hoped many campers including tenters, will remain, as everybody will be heartily welcome.

Enough tents will be vacated so that if any of the comrades with or without their families should crave one more taste of camping they can have it without cost. Naked cots will be found in the tents. Occupants will have to provide covering.

It is anticipated that many comrades will arrive on the afternoon or evening of the 12th. Any of these who have made no other arrangements can find lodgings at Assembly hotel for 35 cents a night. Meals will be furnished by the Women's Relief Corps and the Ladies of the G. A. R. on the grounds at a moderate price. Lunch baskets will be in order. Coffees and other adjuncts will be at hand.

The customary "Grand Army Day" on the Assembly program will be omitted this year.

Mrs. A. J. Meyers and grandson, Charles Wise, have returned from Oak Park, where they have been visiting Mrs. Meyers' daughter, Mrs. S. F. Weatherly.

Mrs. Menton will leave for Dakota next week.

Henry Pabst of Amboy is here today.

MRS. SCOTT PUT ON TRIAL TODAY**HEARING IS HELD BEFORE JUSTICE CONDON IN COUNCIL CHAMBERS.**

Mrs. Ellen Scott, who was arrested in the raid of a week ago last night, was placed on trial before Justice of the Peace E. J. Condon, on the charge of keeping a house of ill-fame, this morning. The hearing was held in the city council room at the city hall. Attorney John E. Erwin appearing for the defense and City Attorney Mark C. Keller and State Attorney Harry Edwads for the prosecution.

Jury Secured.

The defense demanded that the case be heard by a jury of twelve men, and it was nearly 2 o'clock before the following were accepted by both sides: Fred R. Fuestman, W. Byerhoff, J. Connors, Wm. Floto, Dr. Swingle, Wm. Lindsey, John Moseley, Claude D. Tramble, Julie Williams, Erastus Covery, James Boyer and Colling Dysart.

Argue on Ordinance.

When the first witness, a neighbor of the Scott family, was called the defense attacked the validity of the city ordinance under which the prosecution was brought and at 2:45 p.m. the arguments had not been completed.

Commissioners interested.

The city officials are taking great interest in the prosecution, on the strength of the outcome of which they hope to rid the city of undesirables. Commissioners Seauler, Van Babbler and Schmidt were present at the hearing nearly all of the time.

Fashion's Fancies

A soft cerise satin sash is often a smart touch.

The latest Paris blouses are buttoned at the back.

Fluffy white net is used for girlish evening gowns.

Black and white chantilly laces are strong in favor.

The sleeves of the newest blouses are set with beading.

The narrow ruching is another finishing note of the season.

Many of the smartest afternoon frocks have girdles and sashes of velvet and satin.

Belts of patent leather, soft morocco and suede are all modish. They are rather narrow.

Another smart combination of silk and lingerie is found in the short tunic style, where the tunic is of taffeta, richly embroidered, or lace trimmed.

With all light suits, white topped and taupe topped shoes are the more fashionable. They are worn together with bright colored silk stockings.

Baby's Afghan.

A pretty summer afghan for the baby's carriage is made of strips of handkerchief linen held together with inch and a half wide cluny lace, which also edges the cover, says the Philadelphia Times. This is lined with pink or blue silk, and ornamented on the outside with a large satin bow. This makes a dainty protection, and is not heating.

RASH ALMOST COVERED FACE

And Arms. Terrible Itching, Blistery Sores on Arm and Limbs. Could not Sleep. Used Cuticura Remedies. Entirely Rid of All Skin Eruptions.

Warrenville, O.—"I have felt the effects of blood poisoning for eighteen years. I was never without some eruptions on my body.

The terrible itching caused me much suffering and discomfort, while the rubbing and scratching made it worse.

"Last spring I had a terrible breaking out of blistery sores on my arms and limbs. My face and arms were almost covered with rash. I could not sleep and lost nineteen pounds in five weeks.

My face was terribly red and sore, and felt as if my skin was on fire. At last I tried a sample of Cuticura Soap and Cuticura Ointment and I found them so cool, soothing and healing that I got some Cuticura Soap, Cuticura Ointment, and Resolvent. I bathed with hot water and Cuticura Soap, then I applied the Cuticura Ointment every night for two months, and I am entirely cured of all skin eruptions." (Signed) Mrs. Kathryn Kraft, Nov. 28, 1911.

Cuticura Soap is best for skin and hair because of its extreme purity, delicate yet effective medication, and refreshing fragrance. It costs but little more than ordinary soaps, wears to a wafer and gives comfort and satisfaction every moment of its use, for toilet, bath and nursery. Cuticura Soap and Ointment are sold everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

Face-tender men should use Cuticura Soap Shaving Stick, 25c. Sample free.

ELECTRIC LIGHT AS AN INVESTMENT

The finest mansion that adorns the city street or the countryside if without electrical equipment would be considered as incomplete as if the plumbing were omitted. In other words ELECTRIC LIGHT is a necessary part of a house. Without it there is a decided difference in selling value.

The fact is so well understood, that the house built nowadays, which isn't wired, is a rarity. Sometimes there is no electric service within 20 miles, but the wiring is done nevertheless.

But the value added to a house after it's wired—the money profit—doesn't equal the other profit that follows although the last is not expressible like the first in dollars.

It's in the comfort, convenience, cleanliness and cheapness of electric light.

No house owner need be without electric light because THE EXPENSE OF WIRING HIS PLACE IS LOW and we do the work at cost and spread the bill over two years in monthly payments.

An old house can be wired as easily as a new one without inconvenience to the occupants.

**Solid As a Rock!**

Here is the absolutely new mounting device used only on the old reliable Saginaw Silo, which makes it as solid as one piece of granite—as immovable as a mountain. It is our Handy Inside Anchoring Hoop, which circles the inside of the silo above the top, and is directly opposite the top outside hoop. It supports and stays that might loosen and prevents them falling inward. Once in place, it needs no attention, no ad- rode, complete support that guarantees it will move. No loose stays! No falling in! No blowing down. Write today for details. Get our famous free book, "The Modern Way of Saving Money on the Farm."
